ADVISORY- MOST IMMEDIATE

Exporters of groundnuts to Veitnam are aware of the repeated interceptions of Caryedon serratus Olivier pest in consignments shipped during March and April, 2016. This being a serious matter, stern action is being taken against defaulters including exporters by APEDA and NPPO; and against fumigators by NPPO.

Since there are several consignment on high seas currently , exporters are advised to immediately intimate APEDA by email/letter about any intimation of interception/detention/rejection of groundnut consignments as soon as it is known from Vietnam.

IOPEPC is also requested to keep APEDA posted of any such instances that may come to their knowledge.
