Sub: Export of mangoes to Japan.

Dear Exporters

We had received representation from the exporters requesting APEDA to consider bearing of expenses of stationing of Japanese Quarantine Inspector in India during the VHT treatment to make our mangoes competitive in Japanese market. It is also observed that export of mangoes to Japan during the last two years has been negligible.

Considering the above facts, it has been decided that APEDA will bear 90% of the expenses incurred for stationing of quarantine inspection for the year 2015, in subsequent years i.e for 2016 and 2017 - 50% of the cost would be borne by APEDA subject to the following condition :

A written consent from the exporters indicating that a minimum of 50-70 MTs in the year 2015; a minimum of 100 MTs in 2016 and a minimum 150 MTs in 2017 will be exported.

Hence interested exporters are hereby informed to send the consent in writing within 10 days to initiate further action in this regard.

Regards,

Yours faithfully

R Ravindra
