

Basmati Export Development Foundation

Development of Paddy Seed Storage

Basmati Export Development Foundation (BEDF) has set up Demonstration and Training Farm for promotion of scientific cultivation of Basmati for export at the campus of SVP University of Agriculture and Technology , Modipuram. The farm is set up over an area of 10.00 acre.

Presently built up area of about 250 sq.mtr is used for office and storage purpose. BEDF undertakes Contract Farming for production of Paddy seed at farmer's field and sale of the same to interested farmers in the next crop season.

To expand this activity, modification/reconstruction of building with a new design is proposed for creating capacity to store about 200 MT of paddy seeds.

Concept Design Proposals are invited from architects based in Meerut alongwith quotation of fees in separate sealed envelope for comprehensive Architectural Consultancy services. Existing area of the building has to be increased and modified with improved functionality.

Design Requirements:

Space	Total Area
Seed Storage	height upto 18-20ft, 500 sqm
General/Misc. Store/ Packing material store	60 sqm
Seminar Room	up to 50 people
4 Offices (1 Independent Office+ Attached Toilet , 3 Offices for Staff)	80 sqm
1 Laboratory	40 sqm
Pantry	
Toilet	
Open Area shed	in front, 160 sqm
Take Away Room (Sale Counters in front)	20 sqm

The concept proposal along with fees (in separate sealed envelope) must reach by November 21, 2019 by 3:00 PM to Dr. Anupam Dixit, Chief Scientist and Station Incharge, BEDF Modipuram. Clarifications if any may be sought by email from dixit59@yahoo.co.in.
