**REQUIREMENT OF INSPECTORS FOR MANGO EXPORT TO USA, JAPAN AND SOUTH  
KOREA FOR MANGO SEASON 2017**

Dear Exporters,

Mango season 2017 is approaching. As per the requirements under the Operational Work Plan (OWP) for Mango irradiation for USA and monitoring of the Vapour Heat Treatment (VHT), we have to compile a composite list of farmers (PUC) and pack house (PHC) and furnish the same to USDA-APHIS well in advance.

APEDA has already implemented MangoNet software, wherein the farmers of mangoes for exports are to be registered through State department of Horticulture/Agriculture. In this regard, letters have been written to department of Horticulture/Agriculture of the State Government(s). The farmers registration module for the next season has been opened and the registration would be completed by 31.01.2017. The composite list of farmers will be extracted from the MangoNet software and sent to USDA-APHIS. As per the requirement, the export of mangoes would be allowed from the registered farmers only under Hortinet system. Hence, You may ensure that the registration process is completed within the stipulated date i.e. 31.01.2017.

It may also be noted that the packhouse for Mango export to USA, Japan, South Korea and Mauritius have also got to be registered in accordance with packhouse recognition scheme of APEDA.

You are suggested to provide the Export Plan by 6<sup>th</sup> January, 2017 as per the Annexure I enclosed to enable us to finalize the requirement for stationing of quarantine inspector from USA, Japan and South Korea. It may please be noted that the quarantine inspector would be invited based on the requirements to be received from exporters.

Thanking You,

Yours faithfully

Dr. Sudhanshu

Dy. General Manager
