**ADVISORY**

March 15, 2022

This is to inform you that the GrapeNet system works on the Farms registered in current season. The season of farm registration & export starts from October to May of every year. The system is designed in such a way that the farms registered during October to May are considered in current season.

All the farms are required to register/renew their farms on Grapenet. Without "registration/renewal/ recommendation", exporters or laboratories will not be able to find the farms for processing in Grapenet.

Hence exporters may follow the advise to keep their farms registered.
