(23-26th February, 2009)

You may be aware that UAE is one of the prime markets of Indian agricultural products. The exports have reached Rs. 173,1 crores in 2006-07. Some of the factors for being one of most lucrative market are liberal import policy, well-managed logistics, duty free access, presence of Indian ethnic population, increasing interest in Indian food products due to quality and strengths in our products.

Dubai International Exhibition Center, Dubai is strategically located with access to over 2 billion consumers. Due to the country’s rapid development over the past two decades and the increasing sophistication of national tastes, Dubai has became one of the booming markets for retail sector, which the serious food industry players, cannot afford to ignore. Some facts are growth in regions import by 14% reaching the level of US$373 billion. Imports constitute around 90% of the their food requirements. Dubai is also known as redistribution hub of the region due to its strategic location and policy.

Gulfood Exhibition is the Middle East’s definitive Food, hotel and Equipment Exhibition and consistently guarantees the most regional marketing platform. A perfect sales arena to showcase an extensive range of food-related and hospitality product/services, Gulfood 2009 is set to exceed its record of success. It would be good time for the Indian food industry professionals to meet the decision makers face to face and for companies to establish a market presence and corporate identity.

Gulfood 2008 was a huge success. The show attracted more than 2,965 exhibitors from 72 countries. There were a total of 70 national pavilions at the show that saw more than 39,000 trade-only buyers from 140 countries over 4 days. Around 35 companies participated with APEDA in Gulfood 2008.

APEDA is participating in Gulfood 2009 and have taken 78 sqr. mtrs. space to display and promote the exports of processed and other foods. The event featuring the best of the world’s food will provide food companies with a golden opportunity to access the potential of the increasing sophisticated Dubai Food Market.
