- d. Release of **Proceedings of Marketing and Quality Assurance Conference**, by APEDA.

Marketing & Quality Assurance Conference

APEDA being the Principal partner to the event was responsible for organization of three days marketing and quality assurance conference. The conference was organized in hall No. 2 H.

The marketing and quality assurance conference was inaugurated by Shri D. K. Singh Chairman APEDA, in the presence of Shri P. K. Aggarwal, CEO, FSSAI and Shri Sompal Shastri former Union Minister of State for Agriculture and Former member Planning Commission.

The conference was divided into 13 sessions. Theme of the sessions their chairperson and speakers with title of their presentation is enclosed at Annexure – 1.

Buyer Seller Meet

The B2B meetings were conducted in a lounge specially created for the purpose in the APEDA hall. While a lot of meetings did happen here there were an equal number of meetings happened at the exhibitor stalls. The reason being the international buyers were quite keen on seeing the products and their packing. Also by meeting them at stalls they could collect samples which they could take back with them. At the end of the event, from feedback forms collected from the buyers and exhibitors talking to them we have received the following figures with regard to meetings and the potential business enquiries:

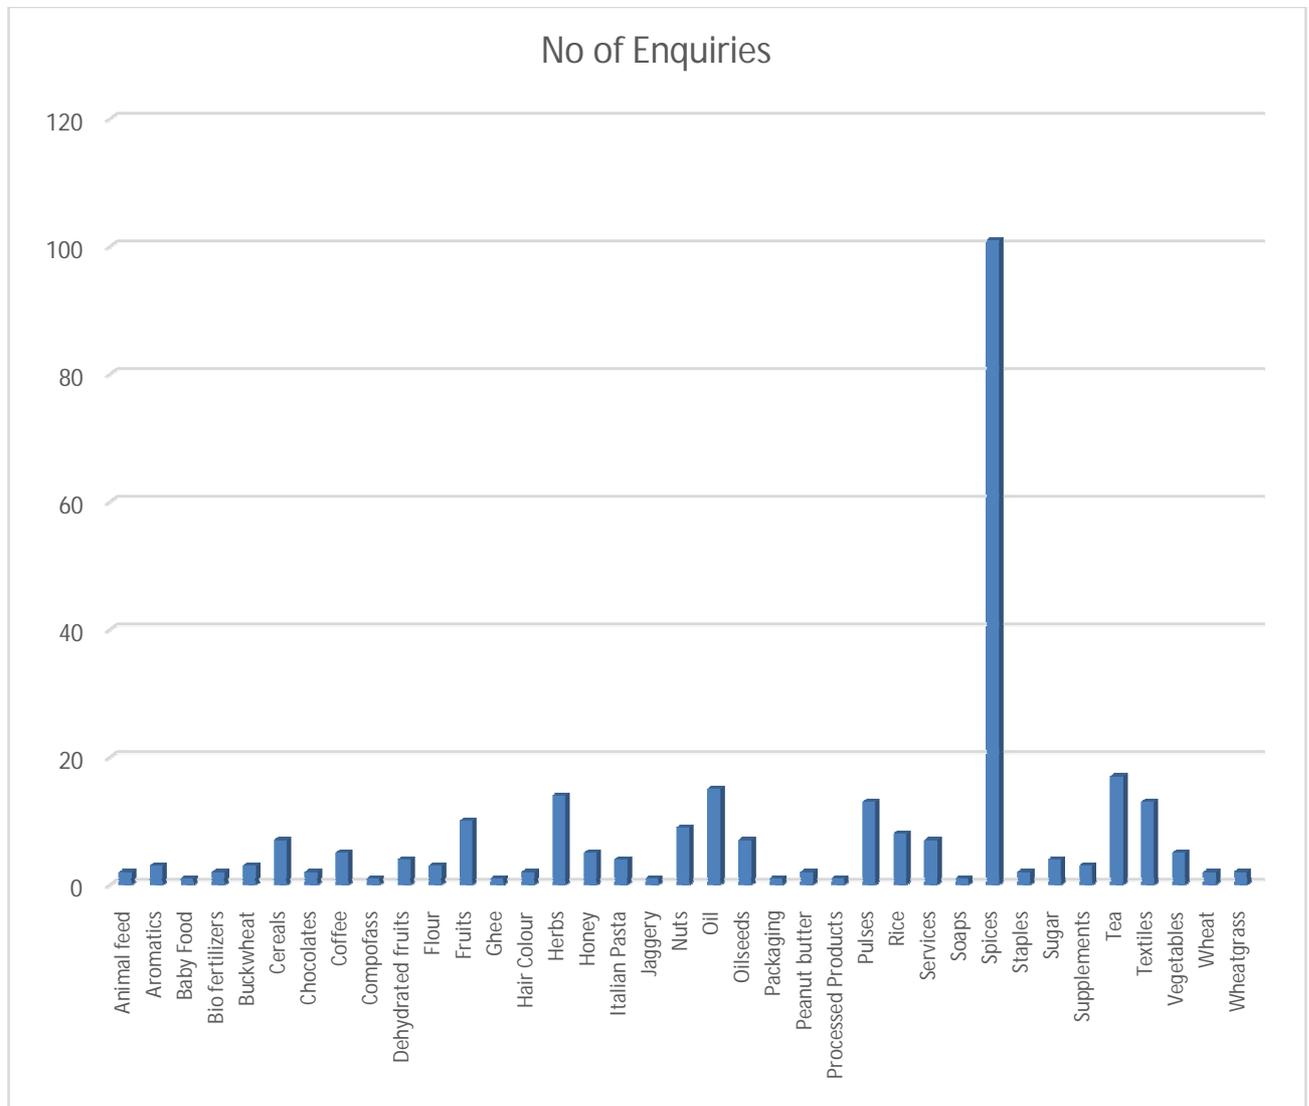

Total no of meetings conducted- 286

Potential Business/enquires generated- Rs. 68.68 crore approx.

Meetings at the B2B lounge:

As per records, the total number exhibitors most of whom were buyers also were 88. Special efforts were also made to connect farmers to domestic companies. The reason being the farmers did not have processing facilities nor any prior experience of exporting, hence they were not ready for export. Thus connecting them to domestic companies was considered a better option since the products could be processed in the form that the buyers from the importing countries wanted and export licenses were available with the domestic companies.

The major categories of interest amongst the buyers were **spices, oilseeds, soya beans, cotton, herbs, tea, coffee, dehydrated fruits and ready to eat products**. The countries China, USA, Germany, France, Italy, Netherlands, Malaysia, Canada, Dubai, Indonesia and South Korea had participating buyer delegates.

Enquiries based on Produce: The bar diagram below depicts the product categories in which the buyers had shown their interest. Spices (high enquiries Ginger, Turmeric, Pepper and Red Chillies), Tea, Oil, Herbs, Fruits, Cotton/Textiles, and Pulses (mostly Soya beans) were a few in high demand.

Total no of Product categories: 37 (approx.)

Total no of enquiries: 283

Conclusion: The B2B programme was a great success. The buyers were appreciative of the efforts taken to match make and schedule the meetings. The ease with which the buyers were able to connect with sellers who had produce of their interest was what was most appreciated.

The buyers were willing to record their appreciation in writing. Business-wise also they found their visit to be worth their while. They could identify commercially viable sources from India to supply products.

The domestic companies found a lot of interest being directed towards distribution of their products in hitherto unrepresented areas i.e. companies from the south who found parties interested in distributing their products in the North and vice-versa.

Certification bodies also found manifold increase in the number enquiries. Individual Farmers as well as farmer groups have shown interest in getting themselves certified. Not only has awareness grown among the general populace but also has had interested farmers to go to the next level of getting themselves certified. This augurs well for the Indian organic industry as it would be accelerated growth of the sector.
